SUMMARY

Full Stack Developer with 2+ years of experience building scalable web applications using Python, Flask, FastAPI, React.js and Node.js. Experienced in developing EdTech, HRMS and Analytics platforms with secure authentication, microservices architecture and REST APIs. Passionate about building high-quality software solutions that improve user experience and business efficiency.

SKILLS

Programming Languages: Python, JavaScript, SQL

Frontend: React.js

Backend: Node.js, Flask, FastAPI

Databases: MySQL, PostgreSQL, MongoDB

DevOps & Tools: Docker, Git, GitHub, Swagger, Postman

Authentication & Security: JWT, OAuth, RBAC, Microsoft Authenticator MFA

Architecture: REST APIs, Microservices

Soft Skills: Problem Solving, Team Collaboration, Agile Development, Debugging, Communication

EXPERIENCE

- Full Stack Developer** **Jul 2024 – Present**
DataSpark AI Solutions Pvt Ltd *Chennai, India*
 - Designed and developed scalable full-stack applications using Python, FastAPI, Flask, React.js and Node.js for EdTech and HRMS products.
 - Collaborated with product managers, designers and QA teams to deliver production-ready features following Agile development practices.
 - Built secure authentication and authorization systems using JWT, OAuth, RBAC and Multi-Factor Authentication to improve application security.
 - Designed RESTful APIs, optimized database queries and integrated third-party services to improve system performance and reliability.
 - Developed reusable frontend components and backend services, reducing development effort and improving code maintainability.
 - Built and maintained microservices-based applications with API documentation using Swagger/OpenAPI.
 - Managed application deployment, production issue resolution, bug fixing and feature enhancements across multiple client projects.
 - Participated in code reviews, requirement analysis and technical discussions to ensure scalable and maintainable software solutions.

PROJECTS

- Interview Application**
 - Tech Stack:** Python, FastAPI, Node.js, React.js, PostgreSQL
 - Built a multi-tenant interview platform supporting B2B, B2C and B2E workflows.
 - Developed coding assessments, aptitude tests, reasoning modules and Resume Builder with automated evaluation workflows.
 - Implemented Google OAuth, organization-based authentication and real-time analytics dashboards for interview performance.
- HRMS Platform**
 - Tech Stack:** React.js, FastAPI, MySQL, Microsoft Authenticator
 - Developed a complete Human Resource Management System for employee lifecycle management.

- Implemented attendance tracking, leave requests, payroll processing, payslip generation and sprint/task management.
- Integrated Multi-Factor Authentication, role-based access control and reporting features for enterprise security.

• **SAI Platform**

Tech Stack: *Python, FastAPI, React.js, Microservices*

- Developed a scalable learning platform using microservices architecture for students, mentors and administrators.
- Implemented role-based onboarding, authentication, mentor attendance tracking and community collaboration modules.
- Built backend services, API documentation using Swagger and integrated communication features including chat and media sharing.

• **IELTS & PTE Learning Platform**

Tech Stack: *Python, FastAPI, React.js, PostgreSQL*

- Developed a language learning platform with secure onboarding and user management workflows.
- Built learning modules including Homophones, Idioms and trial access management using promo codes.
- Developed backend APIs for the Admin Panel and integrated email verification and authentication services.

EDUCATION

• **Hindusthan College of Engineering and Technology**

Bachelor of Engineering (Mechanical Engineering) – CGPA: 7.48

Coimbatore, India

2018 – 2022
